### **Soberanes, Vegetation Fire, Monterey County**

Location: Soberanes Creek, Garrapata State Park, north of Palo Colorado/Big Sur

Jurisdiction: SRA

Type 1 IMT

Per Cal OES Duty Officers, CALFIRE, and ICS-209 as of [09/09/16 at 0532 hours](#):

- [103,242 Acres](#), 60% Contained
- Expected Containment Date: 09/30/16
- 400 Single Residences; 10 Commercial Structures Threatened
- 3 Residential Structures; 2 Other Minor Structures Damaged
- 57 Residential Structures; 11 Other Minor Structures Destroyed
- Hold and improve containment lines and identify contingency lines.

### **Deployments**

- 1 Cal OES Fire Assistant Chief (5212)
- 5 Cal OES Public Safety Communications (PSC) Technicians

### **Resources Assigned**

- 1 Local Government Water Tender
- 1 OES Satellite Phone Cache

### **FMAG**

- On 07/28/16 at 1852 hours an FMAG was approved by FEMA, FM-5137.

### **Proclamations**

- A signed revised extended Proclamation was received from Monterey County which includes both the Soberanes and Chimney Fires. There are no requests for state assistance.

# **FIRE ACTIVITY**

## **Soberanes, Vegetation Fire, Monterey County**

### **Evacuations**

- Evacuation Warnings: A small section of Monterey County along the Pacific Coast Highway (PCH) from Castro Canyon on the north; Julia Pfeiffer Burns State Park on the south, North Coast Ridge Road on the east, and Hwy 1 (PCH) on the west; Tassajara Road from Carmel Valley to the Tassajara Hot Springs Zen Center; the new evacuation warning includes the Big Sur-Partington/South Coast Center Area and applies to all residents and businesses east of Highway 1 starting at the intersection of Highway 1 and Grimes Canyon, extending south to the intersection of Highway 1 and Dolan Canyon. This area is bounded to the east by North Coast Ridge Road and includes all residents and businesses on Dolan Ridge Road.
- Evacuation Order: Coast Ridge Rd. from mile marker 1.5 to Marble Peak at the end of the road.

### **Road Closures**

- Apple Pie Ridge Road and Coast Ridge Road

### **Health and Medical**

- The California Department of Social Services (CDSS) reports that there are currently 4 Community Care Licensed Facilities (CCL) impacted by the Soberanes Fire.
- The San Joaquin Valley Air Pollution Control District has issued an air quality alert due to smoke impacts in San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare Counties, and the valley portion of Kern County from the Soberanes Fire.
- Monterey Air Quality Board has issued an advisory. More information can be found at: <http://mbard.org/air-quality/>.
- Monterey Bay Air Resources District has placed and activated a total of 12 Air monitors.
- An Air Resource Advisor is assigned to the incident and is working with local and state air quality officials to analyze the impact the smoke is having on the public.

### **Missions**

- 2016-Coastal-26229: Watershed Emergency Response Team (WERT) for immediate geological and hydrological evaluation of the burn area affected by the Soberanes Fire.
  - The WERT is activated to assist in the identification of debris flow and flooding potential within the burn area. The team is assigned from 08/31/16 through 09/15/16.

### **Recovery**

- As of 08/30/16 there is 1 Cal OES Public Assistance (PA) team on scene to conduct Preliminary Damage Assessments (PDAs) and to validate the Initial Damage Assessment (IDE).

# **FIRE ACTIVITY**

## **Saddle, Vegetation Fire, Butte County**

Location: Pentz Road and Lime Saddle Road, south of Paradise

Jurisdiction: State DPA, SRA

Type 3 IC

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of [09/09/16 at 0600 hours](#):

850 Acres, [70% Contained](#)

- Expected Containment 09/10/16
- 3 Single Residences Destroyed
- Continue mop up, patrol and fire suppression repair

### **Deployments**

- 2 Cal OES Fire Assistant Chiefs (5214, 5224)
- 2 Cal OES Public Safety Communications (PSC) Technicians

### **Resources Assigned**

- 6 Local Government Engines
- 1 Local Government Water Tender
- 5 Cal OES Engines

### **FMAG**

- An FMAG was submitted on 09/06/16 at 1016 hours and placed on hold.

### **Evacuations**

- All evacuations have been lifted for Butte County.

# **FIRE ACTIVITY**

## **Gap, Vegetation Fire, Siskiyou County**

Location: Top of Oneil Ridge, Klamath National Forest

Jurisdiction: Federal DPA, FRA

Type 2 IMT

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of [09/09/16 at 0551 hours](#):

- [31,664 Acres, 85% Contained](#)
- Expected Containment: 09/30/16
- 9 Single Residences; 5 Other Minor Structures Destroyed
- Maintain lines and mop up

### **Activations**

- Siskiyou County EOC is activated at Level 1.

### **Deployments**

- 1 Cal OES Assistant Fire Chief (5213)

### **Resources Assigned**

- 11 Local Government Engines
- 2 Local Government Water Tenders

### **FMAG**

- An FMAG request was submitted on 08/28/16 at 2247 hours and was placed on hold.

### **Evacuations**

- Advisory: Ladd Road east to Walker Gulch north of the Klamath River, both sides of Highway 96 between Scott River Road and Walker Gulch including Hamburg. All previous evacuations have been lifted.

### **Road Closures**

- Motorists should expect temporary hard closures on Highway 96 due to fire activity.

### **Critical Infrastructure**

- The Cal OES Telecommunications Branch advises Verizon and AT&T COLTS are both on the Gap Fire supporting phones and internet emergency communications.

# WEATHER SYNOPSIS BY REGION

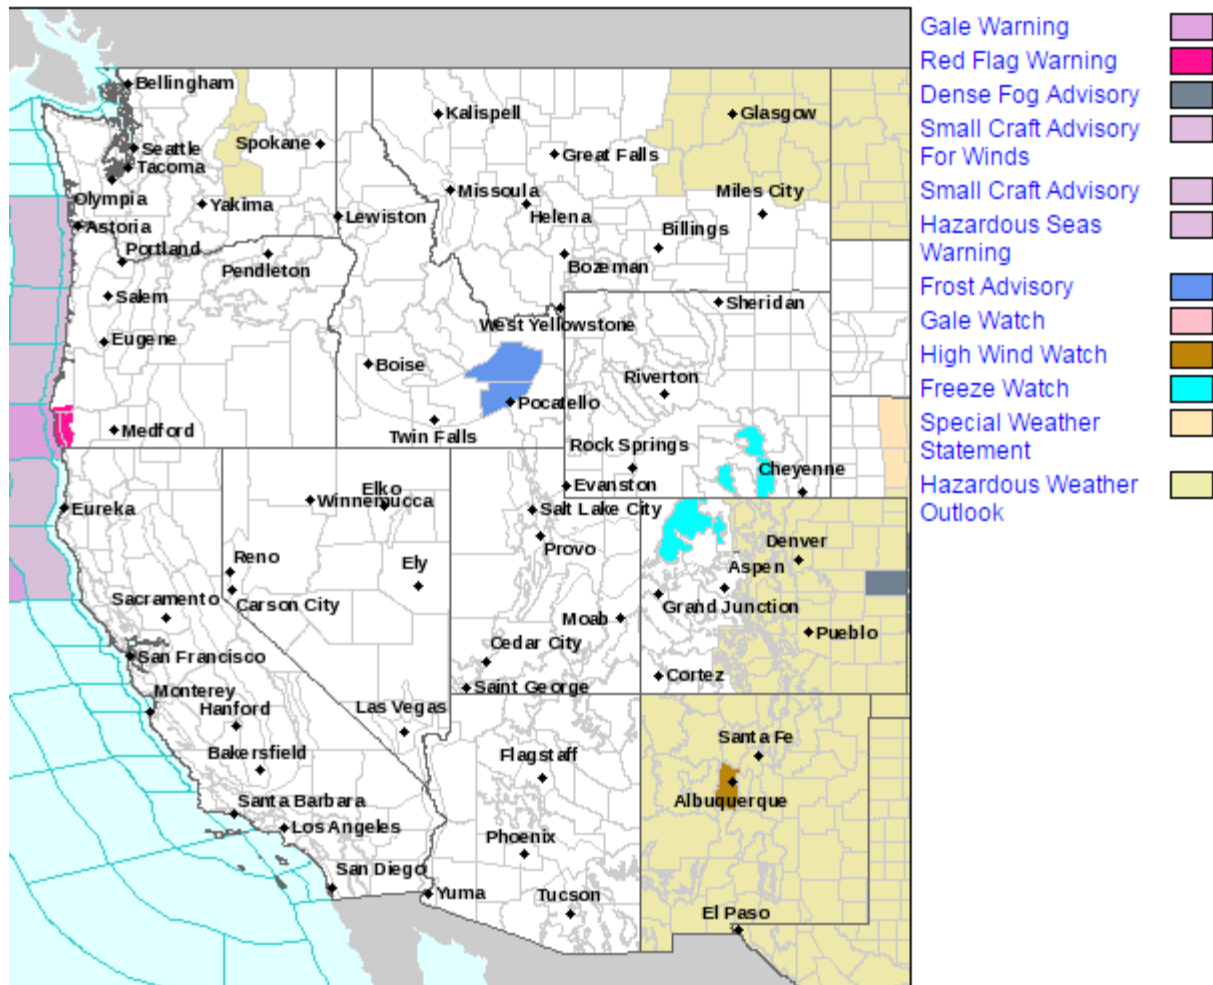

## **NORTHERN CALIFORNIA**

The region will remain under a dry northwest flow through today, sandwiched between strong high pressure over the eastern Pacific and a low pressure trough over the Rocky Mountains. A zonal (west-to-east) flow will be in place Saturday as a Pacific northwest low pressure trough slowly moves southward. Temperatures will be 7-10 degrees above normal through Saturday. During nights and mornings through midday today dry surface north to northeast winds will gust to 20-25 mph and locally higher in the Sacramento Valley/foothills, and on the mid and upper slopes in far northwest California. Poor overnight relative humidity (RH) recovery (20-40%) will continue. These winds will continue at lighter speeds late tonight into Saturday. Afternoon humidity in many inland areas will be 8-15%. The marine layer will keep lower elevation coastal and delta areas cool and humid, while offshore winds from Humboldt County north will have very little marine influence due to the continuing offshore winds. Weak low pressure near the Central California coast will push some clouds up the Sierra to near Lake Tahoe late on Saturday, but showers or thunderstorms are not likely. On Sunday the low pressure trough will begin to move in from the north. Isolated thunderstorms are possible near the Central Sierra, but not as far north as Lake Tahoe. Winds will increase out of the southwest to northwest and temperatures will cool to just a few degrees above normal. A strong surface front associated with the trough will reach northern areas late Sunday. A closed low will develop along the front in our eastern areas late Monday and continue moving southward. Isolated showers and thunderstorms are possible from the Cascade-Sierra crest east Monday and Tuesday. Dry northeasterly winds will prevail over a large portion of the region Monday and Tuesday, with gusts reaching 20-30 mph. Humidity will be low, and poor overnight RH recovery will be common. Temperatures will cool to 5-10 degrees below normal. On Wednesday clouds will begin to clear and temperatures will increase as the low moves to the eastern Great Basin. A dry northerly flow will be over the region Wednesday.

## **SOUTHERN CALIFORNIA**

Light winds with near normal temperatures are expected the rest of the workweek as a strong ridge lies well off the coast. The marine layer has deepened to 2,000 feet which will allow for night through morning low clouds to reach the inland valleys this morning and again this morning. Once the clouds clear to the immediate coast, expect sunny skies the rest of the day. High temperatures will be near 70 along the coast to the lower to mid 90s in the valleys to 105 in the low desert. Minimum relative humidity (RH) will fall into the 8-12% range across areas east of the Crest into the Owens Valley and the desert adjacent sides of the Angeles, San Bernardino and Cleveland National Forest. The rest of the area inland from the marine layer will see minimum readings in the teens. Recovery will continue to be good the next several nights. This weekend, winds will remain light, but temperatures will climb a couple of degrees with less marine layer coverage. Next week, a deep trough is expected to develop over the northern Rockies which may form a closed low over Northern California next Tuesday. This would result in strong winds across the Sierras, Inyo National Forest and northern deserts next Monday with gusty winds spreading into the rest of the area next Tuesday and Wednesday. Temperatures will likely fall to well below normal readings by the middle of next week.
